Letterboxd 2018 Year in Review

Earlier this week we released our 2018 Year In Review. It's a summary of the past year's worth of activity by the Letterboxd community, including the highest rated and most popular films for the year, as well as by month, genre and other categories. The posters in this review have the same controls as those on the main site, so you can mark films as watched, or log/watchlist them directly from the Year in Review page.
